This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

NOTE OF EXPLANATION.

The following is the same for the Ancestors and Ascendants of the Supplement as for those of the Register of 1905, page 269, except that the Eligibility Committee has had to exclude, since the Register was printed, a number of Ancestors, as sufficient proof for their services could not be found. The pages on which these occur will be found among the Errata.

IN preparing the following list of ascendants of the members of the Massachusetts Society of Colonial Dames, no attempt has been made to give with absolute accuracy the dates which follow the name of each ascendant. They indicate the approximate time of his birth and death, or of his arrival in the colonies, and are intended merely to identify the person whose services are recorded.

The name of a colony following that of an ascendant signifies that his services render his descendants eligible in that colony; where no colony is given, it is to be understood that his services render them eligible in Massachusetts. Where an ascendant has been accepted as rendering eligible service, other services have often been added which are not of themselves sufficient to entitle him to a place among the accepted ascendants.

As the services speak for themselves, all titles except that of Reverend have been omitted.

Dates of service are inclusive, except where they have been taken from the printed records of the other societies.

Economy of space has made necessary the abbreviation of

Digitized by Google

names and titles as "Court of Common Pleas" for Inferior Court of Common Pleas, "Assistant" for Governor's Assistant, "Councillor" for Member of Governor's Council. "Preacher of Election Sermon" signifies the minister annually appointed to preach the sermon before the General Court.

Some claims have been excluded from the following list because the authority for the service (especially that of commissioned officers) has not been given fully enough to enable the Eligibility Committee to verify the services. If, however, sufficient proof of the commission, or other service, is furnished, they will be included among the accepted ascendants. Family tradition or town histories, unsupported by other evidence, is not accepted as proof of service.

In case the name of any member has been accidentally omitted, under an ascendant from whom she has established a claim, if she will kindly send word to the Secretary, the omission will be rectified.

ERRATA TO THE REGISTER
1905.

Much of the following Errata is the omitting of ancestors who had been accepted in the early days of the Society and whose service (since the printing of the Register of 1905) has been proven to be insufficient.

PAGE	NO. IN SOC.	
34	4	Add, under Supplementary Claims, James Coffin.
